

## Digital Care Management Solutions

# Transforming Healthcare Together

### Digital Care Management Service

Our solutions and care connect application supports your care teams with a full suite of services:

combine the most essential services into a single, easy-to-use digital system. No more juggling multiple vendors or disconnected tools—just seamless, integrated care management designed for better outcomes and more innovative operations.

**Digital Care Management Platform** brings all your essential services together, including integrated care management that fits naturally into your workflows.

- Remote Patient Monitoring (RPM)
- Track vitals remotely to manage chronic conditions and intervene early.
- Chronic Care Management (CCM)
- Remote Therapeutic Monitoring (RTM) Musculoskeletal Care
- Coordinate long-term care for patients with multiple conditions, improving outcomes while boosting reimbursements.
- Transitional Care Management (TCM)
- Reduce hospital readmissions and support patients during post-discharge transitions.
- Telehealth & Two-Way Messaging
- Connect patients and providers with secure video visits and instant communication.
- Personalized Patient Engagement Tools
- Encourage adherence and boost outcomes with reminders, check-ins, and customized care plans.
